The hot tub located on the private patio and is surrounded with vine draped archways under the sun swept sky! This gorgeous estate is a rich blend of quality with artistic design details in Lincoln Park's finest location. Approximately 8,000 square feet with 5 bedrooms and 4.2 baths, soaring ceilings, dramatic stair case, gourmet kitchen, exercise & media room, library, wine storage, 7 zoned HVAC including radiant heat and a 3 car heated garage.

There are several areas of upgrades that you will not be able to find in any spec build home. Most of these things are hidden from view behind walls and under the floors, but they all quietly perform their roles.
